**Betreft:** Research Fellow Position & Pediatric EM position

---

**Research fellow position -- Royal Infirmary, Edinburgh Scotland:**

2-year funded position available involving cardiology-related research. Promovering possible. The research-time is paid, but the participant will also work approximately two shifts per week in a well-supervised, busy, emergency department with significant trauma & acute care patients to further develop emergency medicine skills & knowledge. Liaison established via the NVSHA so that the training experience is designed specifically to address the needs of Dutch emergency medicine graduates. They would ideally like someone to start in the position sometime in the fall of 2010.

Please send CV & contact information to Christine Houser, opleider, AMC to learn more about this exciting opportunity! If we are unable to provide a research fellow, the position will be filled with a UK physician, instead, so please let me know soon if you are interested.

**Pediatric emergency medicine position -- Sick Kids Hospital, Edinburgh Scotland, affiliated with Royal Infirmary:**

1 or 2-year funded positions available in the pediatric emergency department supervised by emergency medicine & pediatric emergency medicine fellows & attendings. Specific onderwijs will be given weekly in pediatrics, with the opportunity to also follow the onderwijs in adult emergency medicine via the Royal Infirmary. Possibility to work some shifts in the adult emergency department. Research opportunities available. Curriculum specifically designed to address the needs of Dutch emergency medicine graduates, and to build a group of newly trained Dutch SEH physicians specialized in pediatric emergency care. Positions available now.

Please send CV & contact information to Christine Houser, opleider, AMC to learn more about this exciting opportunity! If we are unable to fill the positions, they will be filled by UK physicians, so please let me know quickly if interested.
